Enabling Business Performance

IT has become a significant contributor in helping businesses achieve strategic goals faster and with highest ROI. Though as a buzz word, IT might sound minimal and simple; the most profitable businesses haven't just leveraged IT, but have exploited it. And this is where the lion's share of the pie lies.

Enterprises like yours need a mature IT partner who understands intricate aspects of how IT impacts a business process in isolation as well as in totality. A partner that can consult and advise your enterprise on IT implementations that can propel your business into higher profitability without increasing operational costs. What you need is Cynosure Solutions Fzc.

With a lineage that combines years of experience and pioneering innovation, Cynosure Solutions Fzc has today become one of UAE's leading IT solutions providers. With over 200 man years of IT experience and engagements with stalwarts like Cisco, HP, IBM, Juniper, NetApp, Microsoft, Microsoft Dynamics, MyReport, Symantec, Trend Micro, VMWare, etc., Cynosure Solutions Fzc leverages its experience to serve right across the value chain of technology and IT solutions.

Your enterprise often invests on somewhat invisible elements like resources, management, and technologies to achieve the three competitive advantages: agility, efficiency and profitability. However, in today's world decision making is no longer the differentiator, but decision making 'time' is the differentiator.

SIMPLIFYING IT.

Providing Comprehensive IT Solutions across the Value Chain.

Cynosure Solutions Fzc's services span the entire spectrum of an enterprise's business functions. Besides an extensive experience, Cynosure Solutions Fzc also leverages its deep understanding of different technologies and partners with its customers in their quest to build high performance IT.

Consulting Services

Evaluation

Cynosure Solutions' consultants work closely with your business to evaluate and analyze processes and functions. This evaluation is extensive and is intended to maximize ROI on any IT investment.

Build the Map

Building an IT road map will ensure a successful implementation. As an expert partner, Cynosure builds detailed documentation and leverages its IT experience to build a road map for your IT needs.

Plan and Allocate

IT needs to be planned and resources must be allocated accurately. As one of UAE's leading technology solutions providers, Cynosure Solutions will plan and allocate resources to your IT implementation to maximize investment.

Consolidate

Cynosure Solutions also specializes in optimizing legacy systems to optimize and consolidate existing IT. This drives better results at lower up-front costs.

“

We would like to put on record the successful completion of our Microsoft Dynamics GP ERP implementation project by Cynosure Solutions Fzc, at our Head Office in Abu Dhabi, UAE. We are glad to inform that the project has been completed as per our requirement.

All standard modules of ERP encompassing various business processes in a Financial Company business cycle, which are relevant to our organization, are implemented. All our business processes like Finance, Marketing, Projects, Planning, Purchase, Quality and After Sales Service use the ERP system for day-to-day operations.

We appreciate the dedicated efforts put in by your team in completing the project.

We wish Cynosure Solutions Fzc. all the very best for future endeavors and look forward to a long lasting, mutually beneficial partnership.
